We are Project Co-ordinator

BCOZ superhero isn't an official job title !

It's my immense pleasure in sharing my thoughts about the forthcoming expansion of our existing distillery from 60 KLPD to 120 KLPD. This will also be capable of producing 90 KLPD ethanol proportionately. The next production and financial years are also going to be brighter on starting of this new project and it is expected to be operational by mid of November 2022.

I thank all the team members for your ongoing contributions towards the accomplishments of our GOAL and wishing a more fruitful production in the new financial year ahead (2022 -2023)

Sanjay Rathi (Project Leader), Unit Head

This has been my first project work and I have been very excited from the day I joined the BDPL family and came to know about it. I would like to thank all my seniors and colleague for their support and I am very eager to complete it before my deadline. Must say, I am progressive, proactive and positive towards my project work.

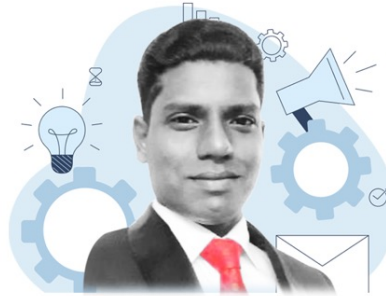

Smriti Kant Mishra, Assistant Manager ETP

“ INDIVIDUALLY, WE ARE ONE DROP.
TOGETHER, WE ARE AN OCEAN.

We are the champions. It is a great feeling to work in expansion project in BDPL due to strong leadership as well as good teamwork. I hope we will complete the project by November 2022 and will reach new milestone.

Sukumar Dutta, Sr. Manager, Engineering

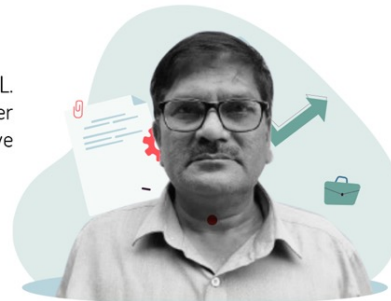

” I was a little surprised when I was hired on the project as the coordinator of the milling department. Thank you to BDPL Management for showing their trust on me. We are getting proper guidance from our project leader Mr Sanjay Rathi and we make sure the project work is going on well. I hope the milling project will be completed as scheduled. I am very happy with my new responsibilities and will put my 100 percent to make it a success.

Ravindra Kumar Rout, Dy. Manager, Milling

It is a great experience to work in project phase 2 in BDPL. We will complete this project by month of November 2022. We are not a team because we work together, we are a team because we respect & trust each other.

Rama Rao, Maintenance Head

“ As a team, we make sure all our work progresses smoothly and in line with our deadlines. In power plant area major civil foundations are in the finishing stage. Majority of equipment received at site and critical items inspection cleared by TUV are under process. We are planning to commission the power plant in the month of November 2022.

CK Rao, DGM Power Plant

“ I am very excited on being a part of this expansion project. I will make sure to take utmost care of my roles & responsibilities in completing the project in time. We have a strong team & guidance from top management will make this project a grand success.

Kanhaiya Kumar Singh, Asst. Manager Dryer

And now it's ME time

I Love you so much, even more than I love myself. I am the happiest and luckiest person in the world. HAPPY VALENTINES DAY my lovely wife. Love you sweetheart!
-Saurabh

Love is in the air

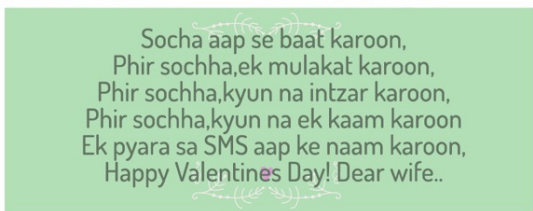

Beyond the million things which we both have to tend to, lied an experience which we both so treasured..No promise were made, no promise were lied, yet the acknowledgement had stirred the bottom of my heart. The adornment was beyond what I had ever experienced, may be beyond what I deserved. I was truly overwhelmed. The depth of love was not judged; the heart just blew off. You aroused the hope that may be the kind of love I dreamt, existed...now I can't imagine a moment without your presence in my life...stay with me till my forever ends...
HAPPY Valentines Day

Mera wajud sirf meri mohabbat se hai, Mujhe gurur bahut apni mohabbat pe hai, Mujhe chahte honge aur bhi bohut log, Magar mujhe mohabbat sirf apni mohabbat se hai,
HAPPY VALENTINE'S DAY !

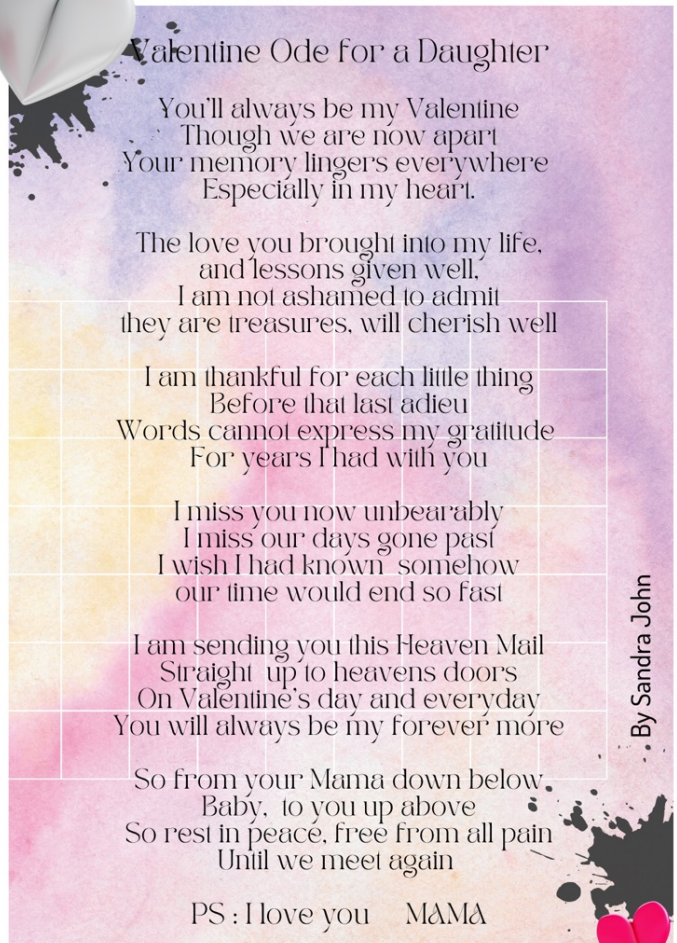

Socha aap se baat karoon,
Phir sochha,ek mulakat karoon,
Phir sochha,kyun na intzar karoon,
Phir sochha,kyun na ek kaam karoon
Ek pyara sa SMS aap ke naam karoon,
Happy Valentines Day! Dear wife..

No words to express my feelings for you. And no 'Thank you' is enough for all your support, kindness and love.

Happy Valentine's Day Rekha !

Valentine's love messages by BDPL

Valentine Ode for a Daughter

You'll always be my Valentine
Though we are now apart
Your memory lingers everywhere
Especially in my heart.

The love you brought into my life,
and lessons given well,
I am not ashamed to admit
they are treasures, will cherish well

I am thankful for each little thing
Before that last adieu
Words cannot express my gratitude
For years I had with you

I miss you now unbearably
I miss our days gone past
I wish I had known somehow
our time would end so fast

I am sending you this Heaven Mail
Straight up to heavens doors
On Valentine's day and everyday
You will always be my forever more

So from your Mama down below,
Baby, to you up above
So rest in peace, free from all pain
Until we meet again

PS : I love you MAMA
